MANAGING EPISODIC DISABILITIES: A TRAINING WORKSHOP FOR FRONTLINE MANAGERS & SUPERVISORS

DATE: 14TH NOVEMBER, 2013

TIME: 8:30A.M. (REGISTRATION)

9:00A.M.—4:30P.M. WORKSHOP

LUNCH & REFRESHMENTS PROVIDED

VENUE: U OF T, MAIN FLOOR, RM 150, 500 UNIVERSITY AVE, T.O.

The Canadian Working Group on HIV and Rehabilitation (CWGHR) has undertaken significant work over the last 15 years to encourage wider awareness, acknowledgement and inclusion of people living with episodic disabilities. CWGHR has recognized, however, that there is a need for educational supports on episodic disabilities specifically for frontline managers and supervisors. Frontline managers and supervisors often assign work hours, duties and assess performance of employees without having the necessary training on how to support and accommodate the needs of employees living with episodic disabilities; this training workshop, therefore, seeks to address this knowledge gap.

Upon completion of the training workshop, participants will : -

- ⇒ **Be introduced to the concept of episodic disabilities;**
- ⇒ **Understand the unique health & social context of each employee within your workplace;**
- ⇒ **Better manage employees living with episodic disabilities;**
- ⇒ **Understand and cultivate a more inclusive workplace culture;**
- ⇒ **Better utilize resources available to assist in resolving workplace challenges.**
